AROUND THE WORLD

2019-2020
EDITION

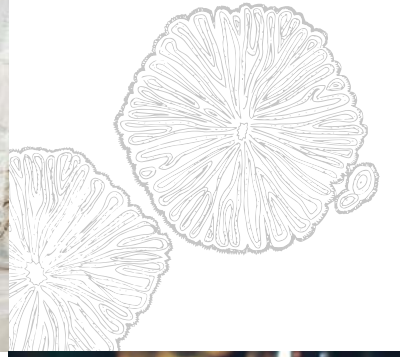
We rarely take the opportunity or have the time to contemplate beauty within and around us, and yet we deeply need it for our life, as a source of inner balance and joy.

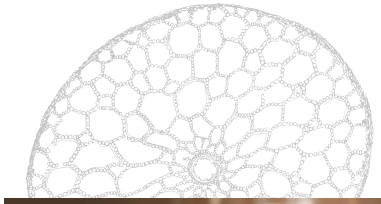
When we experience a breathtaking natural environment, a stunning modern or historical design, exquisite hospitality or a caring touch, we feel revived. We glow. These are beautiful moments which make us feel beautiful too.

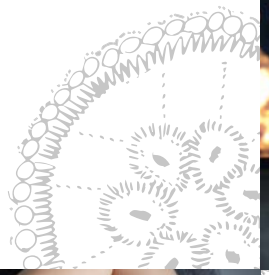
All of this is captured in the healing power of the spa world, which we have served with competence, continuing research and sustainable, science-based, conscious solutions since 1996.

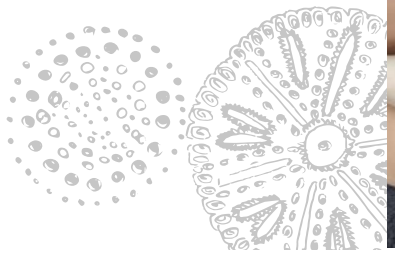
Our vision and our values enable us to partner with so many devoted professionals in amazing spa properties across the five continents.
In celebration, we want to thank them and share this [comfort zone] Around the World 2019-2020 Collection.

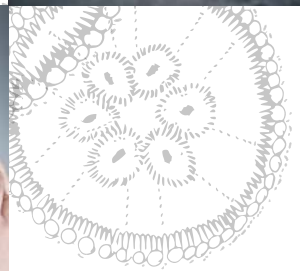
Davide Bollati, Founder and Chairman











SKIN IS OUR FOCUS.
SCIENCE IS OUR GUIDE.
SOUL IS OUR CARE FOR THE PEOPLE
AND THE WORLD AROUND US.

Created in 1996 by Dr. Davide Bollati, pharmacist and cosmetic chemist, [comfort zone] is developed with competence and care by the internal research laboratories at the Davines Village in Parma, Italy, and is available in the best spas across five continents.

The brand's unique, integrated approach combines result-oriented spa facials and rituals, home care and lifestyle tips for the health and beauty of skin, body and mind.

All products follow the Science-Based Conscious Formulas™ approach: they are rich in natural-origin ingredients, free from animal derivatives, silicones, parabens, and artificial colorants.

The commitment to performance and sustainability is validated by the international B Corporation Certification and very well expressed in the formulation, manufacturing and packaging practices.
