VOYA
Organic Beauty
Product Guide

Our story is one of Innovation, Integrity and Respect for the sea

For over 10 years, VOYA has led the way for results-driven, certified organic skincare worldwide. Created lovingly by the Walton family, on the west coast of Ireland, VOYA is the world's first certified organic seaweed based skincare range. We specialise in using hand-picked wild Irish seaweed to help improve your health, skin and wellbeing.

VOYA are the leading experts in harnessing the endless restorative and healing powers of seaweed. We blend our cherished natural resource with a wealth of the purest organic active ingredients and essential oils, to give you the skin of your dreams.

Our evolving range now includes over 50 products, from advanced organic facial products for specific skin concerns to home fragrances; giving you the power to emulate the full VOYA spa experience at home.

VOYA's renowned, award-winning products and treatments have raised people's expectations of organic skincare into something exceptional, luxurious, and very effective.

Did you know?

- VOYA is a journey that began in 1912 when the first seaweed baths opened in Strandhill, Co. Sligo, Ireland.
- Seaweed bathing is a 300-year-old tradition and Ireland's only indigenous therapy.
- The northwest of Ireland's shoreline is one of the cleanest and most unpolluted on earth.
- VOYA's seaweed is sustainably sourced, selected by eye and handpicked.
- VOYA uses the world's highest standard of organic certification as determined by the Soil Association.
- All our skincare products contain powerful, organic anti-oxidant and anti-ageing properties.
- Seaweed boosts the immune system and helps to maintain a healthy thyroid gland, and is proven to detoxify, hydrate and nourish your skin and hair.
- Seaweed has been used as an effective treatment for conditions like psoriasis, eczema, dermatitis and acne.

Why go organic?

- Organic extracts are anti-microbial and have a solid reputation as a natural healer.
- Organic products reduce the number of chemicals in contact with your skin, which can be up to 200 daily with non-organic skincare.
- Parabens and other chemicals found in daily cosmetics not only destroy the beneficial properties of seaweed, but can harm your health and the environment.
- Seaweeds contain algal polyphenols and carotenoids which are powerful antioxidants, and have also been proven to fight the major causes of disease and ageing.
- The skin is the body's largest organ. It only takes 20 seconds for it to absorb any chemical that touches it and for that chemical to enter the bloodstream.

VOYA Philosophy

VOYA prides itself on creating highly effective, exceptional skincare products within an ethos of sustainability and certified organic standards applied from shore to shelf.

Our Green Commitment

VOYA is certified by the organic standards of the Organic Soil Association, Irish Organic Farmers and Growers Association and the Global Organic Textile Standard.

Sustainable Harvesting

VOYA's team of expert harvesters only use sustainable and conservative harvesting practices when removing seaweed. This ensures no damage is caused to the beautiful coastline of County Sligo, Ireland or to its precious flora.

Ingredients

VOYA's products contain certified organic ingredients (minimum 70%) and are made without artificial colours or artificial fragrances, mineral oils, GM ingredients, dioxins (carcinogenic), petrolatum or petrochemicals (derived from petroleum), parabens, imidazolidinyl urea, sodium lauryl sulphate (detergent), propylene glycol, hexane, phthalates or aluminium.

Packaging

VOYA's products are packaged using recycled, recyclable or biodegradable materials. New outer packaging is made from dried seaweed and vegetable inks which are ground down to a powder and mixed with paper.

Animal Testing

VOYA is opposed to the practice of animal testing in cosmetic research and none of its production processes involve such methods.

Seal Rescue Ireland

VOYA is not only proud to officially sponsor Seal Rescue Ireland but also adopt one seal for every month of the year.

We care deeply about the planet and about what you put on your skin.

VOYA

Facial

VOYA introduces a revolutionary range of results-driven seaweed-based facial products, combining the expertise of the world's best cosmetic scientists with VOYA's knowledge of the therapeutic benefits of seaweed.

Knowing that each skin type needs to be treated differently, we carefully select a specific type of seaweed for use in each of our facial products.

Himanthalia Elongata is used predominantly in our oily skin range, providing high levels of vitamin A, C and E along with essential amino acids. It has a natural ability to restore balance to your skin's moisture levels, whilst enhancing the skin with essential minerals.

Laminaria Digitata is used as the mainstay in our dry skincare range. It filters the ocean for nutrients and as a result amasses rich levels of minerals and vitamins. It produces antioxidant compounds that are naturally skin conditioning, reparative and hydrating.

Fucus Serratus seaweed is most commonly used in our sensitive skincare range. It has marvellous anti-inflammatory properties, protects the skin from the environment, and helps reduce the signs of wrinkles.

Combination/Oily Skin

Due to busy lifestyles, dietary changes and the current harsh environment we live in, oily/combination skin is becoming more common. Other contributing factors include genetics, hormones, stress, overusing products, using the wrong products, and medication.

VOYA's new, advanced facial skincare range for oily and problem skin combines the restorative therapeutic properties of seaweed with carefully selected natural active ingredients to help deep cleanse, clear blemishes, minimise the visibility of pores and illuminate the skin whilst ridding it of unwanted shine.

The oily range hero ingredients include Himanthalia Elongata, willowherb and seabucktorn oil which are known for their healing and rejuvenating effects on damaged skin.
