BARR + WRAY

Creators of wellbeing and relaxation

YourSpa reflects exactly what we do...creating for you a spa that is truly yours.

With more than 50 years experience Barr + Wray are a global leader in the provision of Spa Engineering solutions and ideas for water and thermal Spa experiences.

Most of the Spa's we have have commissioned are located within hotels and resorts of exceptional style and presence and our aim is to design and build your spa to complement your surroundings in every respect.

We offer a full product and service provision covering:

- Preliminary / Conceptual Design Services
- Detailed Design Studies
- Project Management / Realisation
- Equipment Supply, Installation and Commissioning
- Aftersales Service

B+W's customised product range includes:

Pools

- Lap / Exercise Pools
- Vitality Pools
- Onsen Pools
- Herbal Baths
- SPA Baths

Thermal Experiences

- | | |
|---------------|----------------------|
| • Saunas | • Laconium |
| • Bio Saunas | • Hammam |
| • Steam Baths | • Snow Cabins |
| • Caldarium | • Experience Showers |
| • Tepidarium | • Heated Loungers |
| • Salariums | • Ice Fountains |

All designed and manufactured to your own specification.

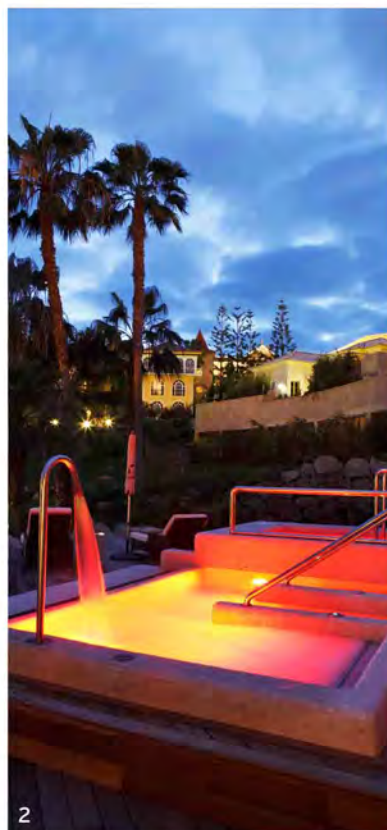

The centrepiece of any spa is the provision of healing and relaxation through specialised water treatment. B+W design and install customised hydrotherapy and vitality pools to match your number of bathers, space requirements and budget.

Each pool is uniquely designed to complement your overall spa concept and provide your customers with the highest level of hydrotherapy treatments.

Pool options include:

- Size and shape
- Concrete tiled or stainless steel
- Fresh water or saltwater
- Pool design, indoor/outdoor combination, infinity edge
- Multiple hydrotherapy stations
- Pool lighting and sound

- 1 Gran Hotel Bahia Del Duque Spa, Tenerife
- 2 Gran Hotel Bahia Del Duque Spa, Tenerife
- 3 Hotel vertA, Battersea Heliport - London
- 4 Shangri-La Hotel, Qaryat Al Beri, Abu Dhabi

- 1 The Maryborough Hotel & Spa, Ireland
- 2 The Spa at Gleneagles by ESPA, Scotland
- 3 Abama Golf & Spa Resort, Tenerife
- 4 Reval Hotel, Riga

B+W design and manufacture a full range of hydrotherapy equipment for your vitality pool. All hydrotherapy attractions are manufactured in 316L Stainless Steel (super duplex for salt water pools) with a mirror polished finish and are designed to give the maximum therapeutic value.

All of the equipment is bespoke, manufactured to suit your vitality pool, and is therefore available in any size or shape.

Stainless steel hydrotherapy equipment range includes:

- Straight and curved air loungers, recliners and seats
- Air tubs
- Body massage stations
- Neck massage spout, fan or rain
- Body massage jets

All attractions are operated independently by either photo-electric sensors or colour change buttons housed on a 316L St. St. Plate engraved with the hotel/spa logo and the name of the attraction.

- 1 Gran Hotel Bahia Del Duque Spa, Tenerife
- 2 Hotel vertA, Battersea Heliport - London
- 3 The Spa at the Carrick, Loch Lomond, Scotland

Incorporating a lap or exercise pool within your facility can add a health and fitness dimension, which will enhance the experience of health and relaxation in your spa.

B+W as the UK's leading commercial pool contractor can offer expert advice on the following technical aspects of your pool design:

- Method of pool construction
- Filtration and water treatment
- Pool water disinfection
- Operation & maintenance
- Aftersales service support

- 1 One Hyde Park, Mandarin Oriental Residences, London
- 2 Lime Wood Hotel and Spa, Hampshire
- 3 Reval Hotel, Riga
- 4 The Carnegie Club, Skibo Castle

- 1 Hemlock Panel Sauna
- 2 Salarium, Salt Cabin
- 3 Hotel vertA, Battersea Heliport - London
- 4 Gian Franco Ferre Spa, Milan
- 5 Eastern Mangroves, Abu Dhabi

The Sauna is the focal point of your spa thermal area and through B+W we can offer the perfect solution to match your exact requirements. This applies not only to the shape and size of your sauna but also to its internal and external design.

In the modern spas, the emphasis is on an all encompassing experience of holistic health benefits and the sauna plays an integral part in this. The beneficial fragrances of the Herbal sauna, the mystical power of the Gemstone sauna, the traditional Finish keloewood Log Cabin sauna, or the energising Aroma sauna are just a few examples of the new world of speciality saunas.

Alternatively, the Bio Sauna is a sauna and much more besides. In line with the bathers' wishes it can be a sauna, a soft steam bath, a herbal bath or a warm air bath. A combination of warmth, moisture and fragrance for the ultimate relaxation experience.

Steam baths have a long history from the ancient Greeks, to the Romans and thereafter the Turkish steam baths, which are still very much in vogue today.

Such popularity dictates that any new spa development would be incomplete without a thermal experience through steam. Steam baths deliver a highly therapeutic, relaxing sensation, whilst allowing the body to perspire in a pleasant and benign environment. These conditions optimise relaxation and wellbeing, making a steam bath a 'must have' feature in every spa's thermal suite.

B+W can offer you a range of options:

- Classic steam bath with its steam saturated atmosphere
- Turkish Hamam with its scarcely visible steam
- Beauty steam bath with mud skin care products
- Aromatic steam baths
- Purpose built Aroma Grotto
- Caldarium for warm air bathing
- Tepidarium with heated loungers for relaxation
